## Pew Research Center Spring 2017 Survey

### Methodological notes:

- Survey results are based on national samples. For further details on sample designs, see Methodology section and our [international survey methods database](#).
- Due to rounding, percentages may not total 100%. The topline “total” columns show 100%, because they are based on unrounded numbers.
- Since 2007, the Pew Research Center has used an automated process to generate topline for its Global Attitudes surveys. As a result, numbers may differ slightly from those published prior to 2007.
- For some countries, trends for certain years are omitted due to differences in sample design or population coverage. Omitted trends often reflect less representative samples than more recent surveys in the same countries. Trends that are omitted include:
  - Vietnam prior to 2014
  - India prior to Winter 2013-2014
  - Senegal prior to 2013
  - Venezuela prior to 2013
  - Brazil prior to 2010
  - Nigeria prior to 2010
  - South Africa in 2007
  - Indonesia prior to 2005
  - Poland in March 2003
  - Russia in March 2003 and Fall 2002
- Not all questions included in the Spring 2017 survey are presented in this topline. Omitted questions have either been previously released or will be released in future reports.
