

PEW FORUM ON RELIGION & PUBLIC LIFE
2010 RELIGIOUS KNOWLEDGE QUESTIONNAIRE

SUMMARY OF SCREENING QUESTIONNAIRES

For the landline sample, half of the time interviewers asked to speak with the youngest adult male currently at home and the other half of the time asked to speak with the youngest adult female currently at home. If no respondent of the initially requested gender was available, interviewers asked to speak with the youngest adult of the opposite gender who was currently at home. For the cell-phone sample, interviews were conducted with the person who answered the phone; interviewers verified that the person was an adult and could complete the call safely. In addition to the landline and cell phone samples, the survey included oversamples of Jewish, Mormon, and atheist/agnostic respondents; oversampling was accomplished by recontacting households identified by previous surveys as having a respondent belonging to one of these groups. The recontacted sample received a special screening interview to verify respondent eligibility for this survey (i.e., that the respondent was Jewish, Mormon, atheist or agnostic). For additional details, see Appendix A: Survey Methodology
