<tbody>
<tr>
<td>Usually accessed the internet everyday over the last year</td>
<td>CPS Computer and Internet Use Supplement (July 2013)</td>
<td>How often did you USUALLY access the Internet over the last year? Consider time spent on the Internet from any computer or mobile device at home, work, or any other location. Did you usually access the Internet...Every Day, More than once a week but not every day, once a week, less than once a month or never?</td>
<td>Every day</td>
<td>62</td>
<td>According to the CPS, daily internet use grew by 1.8 percentage points between 2011 and 2013. In order to account for continued growth past 2013, the benchmark value used in this study is the 2013 CPS figure plus an additional 1.8 percentage points. In reality, the actual change over time during this period may not have been linear, but our approach stays as close as possible to the CPS data that was available.</td>
</tr>
<tr>
<td>In general health is excellent/very good</td>
<td>National Health Interview Survey (2014)</td>
<td>Would you say your health in general is excellent, very good, good, fair, or poor?</td>
<td>Excellent/ Very good</td>
<td>61</td>
<td></td>
</tr>
<tr>
<td>Now smoke cigarettes every day</td>
<td>National Health Interview Survey (2014)</td>
<td>Do you NOW smoke cigarettes every day, some days or not at all?</td>
<td>Every day</td>
<td>13</td>
<td></td>
</tr>
<tr>
<td>Always vote in local elections</td>
<td>CPS Civic Engagement Supplement (Nov 2013)</td>
<td>Do you always vote in local elections, do you sometimes vote, do you rarely vote, or do you never vote?</td>
<td>Always vote</td>
<td>32</td>
<td></td>
</tr>
<tr>
<td>Registered to vote at current address</td>
<td>CPS Voting and Registration Supplement (Nov 2014)</td>
<td>In any election, some people are not able to vote because they are sick or busy or have some other reason, and others do not want to vote. Did you vote in the election held on Tuesday, November 4, 2014? (IF NO) Were you registered to vote in the November 4, 2014 election?</td>
<td>Voted in the election or registered to vote if did not vote</td>
<td>69</td>
<td>This estimate uses the adjustment recommend in Hur and Achen (2013) to correct for bias resulting from the fact that item nonrespondents are treated as not having voted in the CPS. Adjustment factors for 2014 can be found at: <a href="http://www.electproject.org/home/voter-turnout/cps-methodology">http://www.electproject.org/home/voter-turnout/cps-methodology</a></td>
</tr>
<tr>
<td>Household received any state or federal unemployment compensation in the last year</td>
<td>CPS Annual Social and Economic Supplement (Mar 2015)</td>
<td>At any time during 2014 did you receive state or federal unemployment compensation?</td>
<td>Anyone in the household received state or federal unemployment compensation</td>
<td>4</td>
<td>The variable used to produce this estimate is a recode that aggregates responses for individuals up to the household level.</td>
</tr>
<tr>
<td>Currently have a valid driver’s license</td>
<td>Federal Highway Administration (2014)</td>
<td>n/a</td>
<td>Number of adults 18+ with driver’s license from FHWA divided by the total number of adults from 2014 ACS</td>
<td>86</td>
<td>Data used to calculate this figure is available at: <a href="https://www.fhwa.dot.gov/policyinformation/statistics/2014/dl20.cfm">https://www.fhwa.dot.gov/policyinformation/statistics/2014/dl20.cfm</a></td>

<td>Which category represents the total combined income of all members of this FAMILY during the past 12 months?</td>
<td>16</td>
<td></td>
</tr>
</tbody>
</table>

Notes: The survey also included several questions measured in the Behavioral Risk Factor Surveillance Survey (BRFSS), but those were not considered reliable population benchmarks given limitations in the BRFSS design. One question about the number of doctor visits in the last year (Q0021) matches a question in the National Health Interview Survey; however, it was excluded from the benchmarking analysis because differences in the preceding questionnaire content and administration were deemed likely to produce substantial context effects.
